

National Team Program Policy

Version 2025-02

Board Approved 2024-11-12

SECTION 1 - INTRODUCTION

1. INTRODUCTION

As the National Sport Organization for Sport Climbing in Canada, Climbing Escalade Canada (CEC) is responsible for identifying, selecting, and supporting athletes with the highest potential for success on the international stage. Our mission is to set a high standard for performance, fostering an environment that promotes excellence and competitiveness.

CEC's Podium Pathway identifies athletes in the Train to Compete, Learning to Win, and Winning for a Living stages of our Long-Term Athlete Development (LTAD) framework. While we support athletes at all these stages, it is crucial that each athlete competes at the appropriate level for their optimal development — whether national, continental, or international. This approach ensures athletes are both challenged and supported according to their growth, preparing them to meet the demands of their competitive pathway.

The National Team Program (NTP) is aligned with CEC's high-performance strategies and those of our key funding partners, including Sport Canada, the Canadian Olympic Committee (COC), and Own the Podium (OTP). This alignment provides athletes with the resources and opportunities needed to excel while fostering a strong development pipeline for the future of Canadian climbing.

1.1. CEC PODIUM PATHWAY

A Podium Pathway is a structured framework designed to guide athletes from developmental stages to elite performance levels, with the goal of achieving podium finishes at major competitions. The CEC Podium Pathway includes national, north-american, pan-american, and international competitions, preparing athletes for success on the world stage, including events like World Championships, World Cups, and the Olympics.

This diagram illustrates **CEC's Podium Pathway**, which is divided into three stages of athlete development:

- **Train to Compete** (base level): Athletes participate in youth and Canadian national events, focusing on skill development and competition experience.
- **Learning to Win** (middle level): Athletes compete in continental events, NACS, and Canadian national events, building competitiveness.
- **Winning for a Living** (top level): Athletes aim for podium finishes at major events like the Olympics, IFSC competitions, and other international games.

1.2. HP LEADERSHIP STRUCTURE

*IST is comprised of coaches, SC coaches, mental consultant, nutritionist, etc.
 ** Supervised by the High Performance Director

4. EVENT SELECTION PROCESS

CEC will carefully endorse Canadian athletes to attend Continental and International events. The goal is to ensure meaningful competition opportunities for which the athletes are physically and mentally ready, while ensuring high performance of Canadian athletes on the world stage.

Selections will be based on Squad priority, Continuous National Ranking (CNR) and event quotas from governing bodies. Selection is limited to athletes on the National Team Program. Event Team Selections will be made at multiple points throughout the calendar year. This allows for movement in CNR and opportunities for more athletes to be selected for events.

The dates and details for ALL event teams selections will be published at the start of the calendar year, based on specific dates when movement occurs within the CNR (ex: following a World Cup, after a point decay timeline, etc).

Notice of selection or non-selection to an Event Team will be provided to all athletes who may be eligible for an event a minimum of 20 business days or one month, whichever is greater, in advance of the registration deadline of the event in respect of which the selection is being made. However, every effort will be made to position event team selections as far in advance as possible.

4.1. MAJOR GAMES

Includes: Olympic and Paralympic Games, PanAm Games, World Games, Youth Olympic Games, Canada Games

- A specific Nomination Process will be posted for each event, pending on the International Qualification Process.

4.2. IFSC Events

Includes: World Championships, World Cups

IFSC Quotas - CANADA (reviewed yearly as of December 31):

- 2025 IFSC World Cup quotas: guaranteed fixed quotas of two (2) athletes per gender/discipline/country and up to an additional maximum of four (4) athletes per gender/discipline/country for each athlete ranked 1st to 40th in the IFSC CUWR as of December 31, 2024.

4.2.1. Distribution of Quotas to Canadian Athletes

- **Step 1: Elite Squad Athletes**

- **Step 2: Performance Squad Athletes**
 - Any remaining quotas after the Elite Squad allocation will be offered to Performance Squad athletes.
 - Performance Squad athletes will be prioritized based on their Continuous National Ranking (CNR) ranking.
 - Specific dates for this allocation will be established annually by the HP Governance Committee.
- **Step 3: Development Squad Athletes**
 - If quotas still remain after distribution to the Elite and Performance Squads, they will be offered to Development Squad athletes.
 - Development Squad athletes will be prioritized based on their CNR ranking.

4.3. CONTINENTAL Events

Includes: PanAmerican Championships, PanAmerican Cups, NACS

When limited quotas are allocated, the same selection process will apply than for the IFSC Events.

4.4. YOUTH EVENTS

For Youth Events, please see the Next Generation Program.

4.5. Calendar of Selection

The selection calendar is designed to balance the integration of the latest rankings with providing athletes sufficient notice for invitations.

To achieve this, CEC uses two key dates:

1. **CNR as of (Date):** This is an anticipated ranking taking into account decay and expiration of past events as of a specific near-future date. This provides more current standings while allowing earlier notice invites.
2. **Selection Starts On (Date):** Invitation dates are set to include as many current-year CNR-eligible events as possible and invitations are issued based on anticipated CNR standings.

2. Ranked in the Top 6 of an Individual Discipline CNR at the time of the HPC Invitations

Athletes outside of the NTP who:

1. Finish top 10 at the National Championships
 - a. If an athlete in the top 10 declines the HP competition invitation, alternates will be invited up to position 12 from senior nationals only
2. Rising Star exemption – athletes in the first year of senior eligibility who finish in the top 20 at Senior National Championships
 - a. For 2025, this is athletes born in 2008.

CEC Members (PTSOs) extra quota:

1. Each CEC Member may submit 2 additional athletes per gender and discipline for invitation to HP Competitions. Each Member has full autonomy over the selection process for HP Competition extra quotas.
2. Athletes submitted as Member extra quota must have competed at the previous discipline-based senior nationals OR have valid and documented exemption from either CEC or PTSO.
3. A Member can decline to name athletes in these extra quotas. If unused, there will be no reallocation of quotas to another PTSO.
